About

Hello!

My name is Antti Saarela and I am a multi talented IT professional.

I have a good knowledge and plenty of hands-on experience about data-solutions, software development, cloud hosting and managing servers.

I enjoy working in the fast paced multicultural environment and I love difficult problems that require a creative approach.

My native language is Finnish and I speak and write fluent English.

Skills

Data-architect / Engineer / Analyst

Extensive experience from various data tasks. I have excellent technical skills that guarantee a high success rate for the projects. I have designed and implemented various data pipelines from planning to production.

- PROJECT MANAGEMENT
